Professional experience

2018 – Present **Research engineer**, *CEMEF Mines ParisTech, (Sophia Antipolis, France)*, CFL research group, Topic : Machine learning for CFD problems (MINDS project).
Reference : Elie Hachem, elie.hachem@mines-paristech.fr, +33 4 93 95 74 58

2015 – 2018 **Research engineer**, *INRIA, (Sophia Antipolis, France)*, Nachos project-team, Topic : Development of a discontinuous Galerkin solver suite for nano-optics problems.
Reference : Stéphane Lanteri, stephane.lanteri@inria.fr, +33 4 92 38 77 34

2012 **Master's degree internship (2^{nd} year)**, *INRIA, (Sophia Antipolis, France)*, Nachos project-team, Topic : Discontinuous Galerkin time-domain method for nanophotonics.
Reference : see above

2011 **Master's degree internship (1^{st} year)**, *University College, (London, UK)*, Mechanical engineering department, Topic : Assessment of transcatheter aortic valve devices by numerical simulation on commercial solver.
Reference : Gaetano Burriesci, g.burriesci@ucl.ac.uk, +44 20 7679 3922

Projects

Minds A project bringing together numerical computation and data sciences, including :

- A research activity organized around supervised and reinforcement learning for CFD problems,
- The development of an agnostic coupling interface, in C++ and Python, between numerical simulation codes and machine learning libraries aimed at non-experts,
- The co-advising of two PhD students (J. Chen, *Physically-informed machine learning for turbulent flows* - H. Ghraieb, *Deep reinforcement learning for shape optimization*),
- A website (see `https://cfl-minds.github.io/`),
- Regular seminars, given by experts in the field (`https://www.youtube.com/channel/UCUzBdy7ovH102TvHLtM8pZQ`).

Diogenes Development of a discontinuous Galerkin library in modern Fortran for nano-optics applications. This project included several tasks, such as :

- A parallel discontinuous Galerkin time-domain solver for Maxwell's equations, with an advanced mesh processing library, a mesh partitioning tool, a material processing tool for metal and semiconductor permittivity laws, and a coupling with optimization libraries,
- The computation of a large set of real-life problems, set up in collaboration with academic and industrial partners (CNRS LPMC, Bristol University, C2N, CEA LETI, ...),
- A website (see `https://diogenes.inria.fr/`).

Studies

2012 – 2015 **PhD in applied mathematics and numerical simulation**, *INRIA, (Sophia Antipolis, France)*, Nachos project-team, Topic : Discontinuous Galerkin time-domain method for nanophotonics.
Reference : see above

2009 – 2012 **Engineering degree in applied mathematics**, *ENSTA ParisTech (Paris, France)*.

2011 – 2012 **Master's degree in modelisation and numerical simulation, with distinctions**, *CEA (Saclay, France)*.

2007 – 2009 **"Classes préparatoires" in mathematics, physics and chemistry**, *Lycée Massena (Nice, France)*.

Conferences

2018 GDR Ondes, Paris (France), *Diogenes : a DG-based software suite for nano-optics problems*

2014 Acomen, Ghent (Belgium), *A curvilinear discontinuous Galerkin time-domain method for nanophotonics*

2014 Meta, Singapore, *Discontinuous Galerkin time-domain method for nanophotonics*

2013 Waves, Tunis (Tunisia), *Discontinuous Galerkin Time-Domain method for nanophotonics*

2012 GDR Ondes, Troyes (France), *Méthode Galerkin discontinue en domaine temporel pour la propagation d'ondes électromagnétiques en nano-optique*

Teaching and supervising

2018 – Present **Co-advisor for PhD students in the MINDS project**, *CEMEF Mines ParisTech (Sophia Antipolis, France).*

2014 – 2016 **Supervisor for L3, M1 and M2 internships**, *INRIA (Sophia Antipolis, France).*

2010 – 2011 **Computing science teacher in "Classes préparatoires"**, *Lycée Marcelin Berthelot (Saint-Maur des Fossés, France).*

Skills

Programming C++, Python, Fortran

HPC MPI, OpenMP

Machine learning Keras, Tensorforce, Tensorflow

Meshes Gmsh, MeshGems

Post-treatment Paraview, Vizir, Medit

Development Git, CI, CMake, Jenkins, Emacs

Systems Linux, Mac OS, Windows

Misc. LaTeX, HTML, CSS

Languages English (fluent)

Hobbies

Sports Climbing, alpinism, ski-touring, canyoning

Others Photography
